I heard it from Brandi. I think she has some other commitments at the end of the week but talk to her.

Ashley,

Where did you hear about the 25<sup>th</sup> deadline for inspection? Reading my Branch Chief's email below, he is saying 28<sup>th</sup>.

Sincerely,

Valmichael Leos

**Subject:** Looking for volunteers for field work at San Jacinto

RPMs,

I am asking if you are interested in volunteering to assist the EPA Dive Team for the cap inspection at the San Jacinto site. This would involve working in waders and walking over the underwater portion of the rock cover in the San Jacinto River collecting measurements on the thickness of the cover. The Dive Team is working on the exact dates of deployment, but it is likely to occur between the dates of April 18<sup>th</sup> to the 28<sup>th</sup>, and could involve work through the weekend. The work is expected to take 3-5 days. Overtime would be available for work outside the normal work day. Please respond and let me know if you are interested. I understand that not having exact dates is going to be a concern before you would want to commit, but at this time I am mainly trying to see who is interested. If you have any questions about the work, you can ask Valmichael Leos or Gary Miller. Thanks.

John C Meyer  
Remedial Branch Chief  
Superfund Division
